

## mosquito® Lice Environmental Spray

### Combats head lice on fabrics and furniture

- e.g. bicycle helmets
- cuddly toys
- upholstered furnishings

mosquito® Lice Environmental Spray kills lice and other insects on all surfaces, such as, child seats, caps, bicycle helmets, cushions, armchairs, combs and brushes etc. and can thus prevent reinfection in people.

Effective against

lice

fleas

dust mites

ants

bedbugs

### Instructions for use

Apply mosquito® Lice Environmental Spray to areas in which lice may be present by spraying for 4 to 5 seconds at a distance of 30 to 40 cm. Allow half an hour for drying and ventilation. Not suitable for use on people. For treating people, use mosquito® med Lice Shampoo 10 or the combined product Lice Shampoo 2in1 with additional lice protection, for example.

### Active ingredient

PT 18 insecticide for controlling lice in the environment. Chrysanthemum cinerariaefolium, ext. (CAS 89997-63-7): 0.25 g/100 g

### Caution

Do not spray on food or surfaces that come into contact with food. Do not spray on or in the vicinity of pets, especially cats, fish, small birds or reptiles. Avoid contact of the product with skin, eyes and mouth.

### Danger

Extremely flammable aerosol. Pressurised container: may burst if heated. Very toxic to aquatic life with long lasting effects. Keep the product out of reach of children. Rinse with plenty of water immediately. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight.

Do not expose to temperatures exceeding 50° C/122° F. Avoid release to the environment. Collect spillage. Dispose of contents and container at a collection point for dangerous waste or special refuse.

Use mosquito® lice protectant with caution.

Before use always read the label and product information carefully.
